

# Powered Mobility Workshop

with

**Ros Livingstone & Debbie Field**

**Date:** **Friday 1<sup>st</sup> November 2013** (9.30am Registration-4.30pm)

**Venue:** **Bobath Scotland ~ Cerebral Palsy Therapy Centre**

10 High Craighall Road

G4 9UD

Tel: 0141 352 5000

**Fee:** **£40 includes lunch**

**Open to:** OTs, PTs, education colleagues,  
Professionals working in this field

## Focus of workshop

- Update regarding the **evidence-base** for paediatric powered mobility
- Exploring **access methods** & use of a **framework for selecting access method**
- **Outcome measures:** inc. case studies, driving skills tests, participation measures
- Powered mobility **training**

This 1-day Powered Mobility workshop will be facilitated by Ros Livingstone & Debbie Field from the Sunny Hill Health Centre for Children, Vancouver, Canada. Ros & Debbie will be at this year's European Seating Symposium where they are presenting papers, and have kindly agreed to extend their stay to run this one-off course. (Ros is already known to many therapists in Scotland having previously worked in the UK, as part of the Paediatric Occupational Therapy Service, NHS Lothian where she was involved in developing the use of technology and powered mobility within the special schools team.)

The day will include a mixture of theory and practical sessions. If time permits there will be an opportunity for problem-solving specific cases – attendees are invited to bring footage of cases they would like to discuss. (Please contact Sandra at Bobath for further details if you wish to do so.)

We are pleased to be able to open this workshop to colleagues working in the community who work with children who have cerebral palsy and who are involved in the assessment/training for powered mobility. However **places will be limited** so book early to avoid disappointment!
