

## Digital Files from Publishers

Some publishers can provide digital files of books for you to use or adapt into accessible formats. In most cases, the file is a PDF, although it's always worth asking if they have other formats such as DOC, if that's what you want.

The publisher may not be able to give you a digital file for some books. For example, the PDF may not exist if it is an older title, or the publisher may not have access to it (it may be held by one or more printers).

When you ask a publisher for a digital file, always provide:

- The title, author, edition and ISBN of the book(s) you want;
- why you need the book and what you want to do with it.

Most publishers are willing to help print-disabled pupils read their books, but they want to make sure that it is only those pupils who get the digital book and that you are not asking for it so you don't need to buy the paper copies. Most publishers ask you to sign a declaration that you will only give the digital file to particular pupils.

Sometimes the publisher will incur costs to provide you with a digital file and in these cases, the publisher may ask you to pay for the file. In other cases, there is no charge.

Publisher	Contact	Policy
