Books for All Scotland Database

The **Books for All Scotland database** contains information about print materials in accessible alternative formats. This database allows teachers quickly to find out if the book, or worksheet or exam is already available in a format to suit the disabled pupil.

The **image link below will direct you to the database or use the [BfAS link](#).**

By clicking on the text link or on the image you will be taken straight to the database. If your authority is signed up to use Shibboleth you will be taken straight through to the database and automatically signed in. You will see this screen appear briefly:

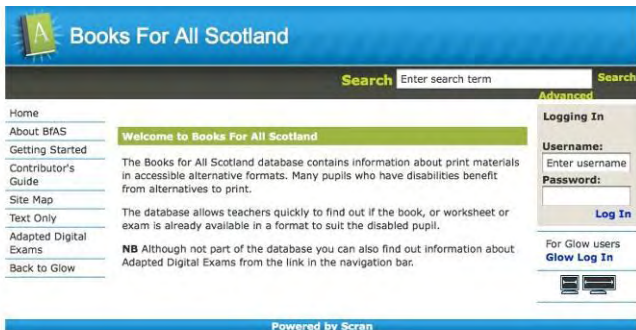

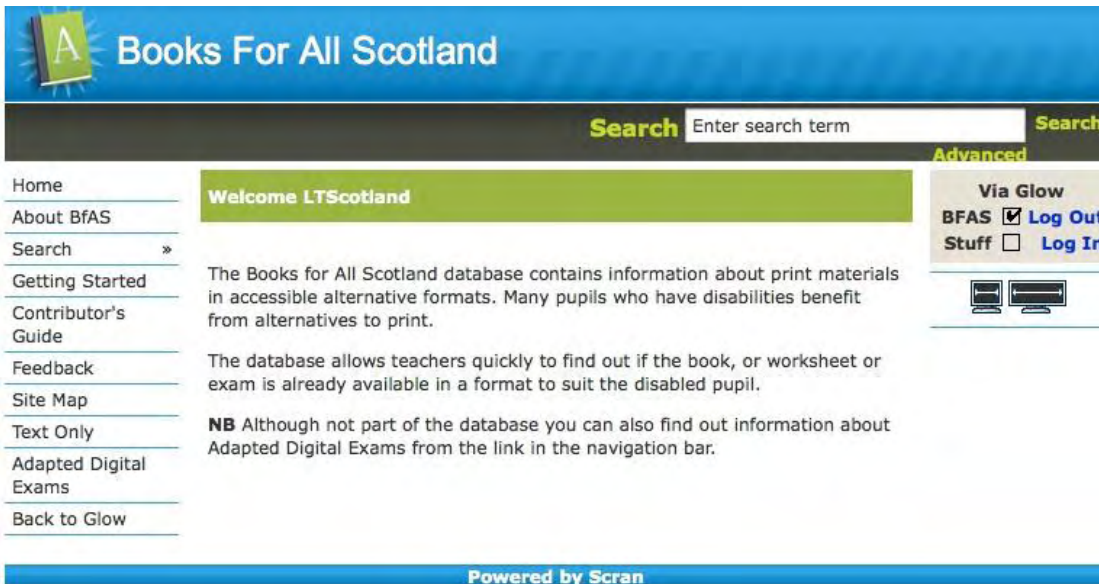

Shibboleth Authentication Request Processed

You are automatically being redirected to the requested site. If the browser appears to be hung up after 15-20 seconds, try reloading the page before contacting the technical support staff in charge of the desired resource or service you are trying to access.

Redirecting to requested site...

You will then have access to the database to search the resources and find out more about the database through the links on the left hand navigation bar.

If your authority isn't signed up to Shibboleth yet you will be straight to the Books for All Scotland database where you will need to log in using your SCRAN details.

Once you have finished using the database you can go back to Glow using the **Back to Glow** button at the bottom of the navigation bar. You will have probably timed out of your Glow session so you may need to log back in again and you will be taken automatically back to the Additional Support for Learning Glow Group.
