
Internet Resources for PowerPoint

Quick Guide

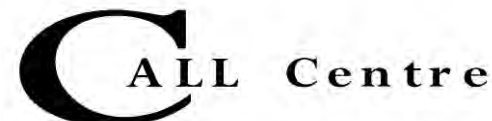

Updated 10/06

This is by no means the definitive list of resources that are available from the web in PowerPoint. There are some tutorials and some places where you can download presentations. Some of the downloadable PowerPoint presentations are aimed at American mainstream children but the ideas are good! There are tutorials, hints and tips, useful links, and examples to download. (If you like a particular site or set of downloads, keep checking it, as new resources may appear from time to time.)
