

SpringBoard Lite

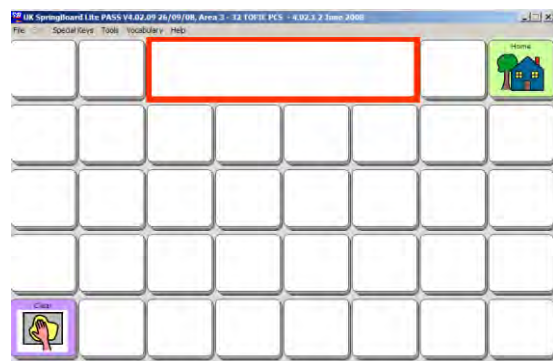

Making a New Page from a Template

Quick Guide

Created 08/09 JC
Updated

Creating the New Page

- Press the 'Tools' icon button
- Select 'create page'
- Give the page a name e.g. DVDs
- Press OK
- Then press 'copy from an existing page'
- You will be asked to find the page to copy from
- Press 'more items' until you find your template'
- Select your template
- You will now have a blank page with some function buttons on it e.g. home 'page link,' clear 'tool' etc.
- Programme the buttons on the page (see "Modifying a button" crib sheet)
- When you have finished programming (or if you come out of programming by mistake) you will be brought back to the 'Top Page'

WHERE IS MY PAGE NOW?!
