

# Feature Match Comparison Chart

Suggestions for use:

- 1) Identify if the listed features are required for your client. If so, either place a check or specifications in the *Required Feature* column.
- 2) Mark any features that are not necessarily required, but are desired in the *Wish List Feature* column.
- 3) Identify 1-3 possible devices and insert their names in the *Device* columns and mark which features each has. You can also indicate if more information is required.
- 4) Completion of the prior steps should assist you in identifying which device(s) best fits your clients needs, abilities, and wishes.
