26/05/21 Using PowerPoint creatively to support learners with  
ASN

**Can you help? Our friends at the Scottish Sensory Centre are carrying out a research project and are looking for volunteers:**

Do you teach any young people aged 15 and older who are deaf or partially deaf? The READY project is researching the experiences of young people as they move from school to college, university and work. These young people can have any level of deafness. There is an online questionnaire to fill in each year for 4 years. Participants are sent a £10 token each time. We are particularly looking for more boys and more young people from low-income families. Please contact [rachel.oneill@ed.ac.uk](mailto:rachel.oneill@ed.ac.uk) if you have any questions. We don't want you to send us referrals, just please encourage suitable pupils to investigate the website:
